

# Blackbaud MobilePay Terminal

With the November 2021 update, *Blackbaud MobilePay Terminal* provides additional and enhanced functionality. The following are the most notable updates in this release.

## **New Version Available**

A new version of the app, 1.3.16, includes improved performance and stability, support for the latest iOS build, and bug fixes.

## Improved Error Messages

We clarified error messages for test account configurations and for accounts in a declined ACH status with failing transactions.
